## Drug Talks Worth Heeding

Does it not often happen that some little article or preparation is wanted that you hardly know whom to look to for it?

If that is a frequent case with you then try us.

Our modern Drug Store carries a very varied stock of goods among which are not only Medicines and Sick-room Supplies, but articles of comfort, toilet articles, bath goods and sundries of every description. In fact hundreds of little things you would not know we had, unless you came to Our Store and saw them.

That is just the point. We want you to come and visit our store, make a trip of inspection. We invite you to call and look our stock over and let us explain anything you wish to know about in the store.

We want to show you our goods—prove to you why you should trade here no matter what you should want—show you the extremely high quality of everything we sell and prove to you the many opportunities for practicing economy.

In the line of high class goods we can supply you with anything from the complex prescription to a box of stationery, and everything supplied will be the lowest in cost when our high quality is considered.

## HURD & BRONSON,

Newport's Busy Drug Store.

# Report of Board of Education

---

The problem of furnishing equal school privileges for all pupils in a small country town like ours is becoming more and more difficult. A scattered population, long distances, and little used roads, combined with the fact that the average age of the pupils in school is growing, each year, less and less, are some of the obstacles to full attendance, especially during the winter season. This applies more particularly to the school at North Grantham. The financial report shows that we have paid for only twenty-eight weeks of school in this district, as against thirty-two weeks at the village; but the school year ends in July, and we hope to make a more even showing when our report goes to the State on that date.

Number of weeks, however, is not the only consideration in fixing the value of our schools. The teacher is the important factor, and this year we have depended largely on home talent. In Miss Bernice M. Howe at the village, and Mrs. Lottie Ide at North Grantham, the district has had the advantage of teachers well prepared for their work and with considerable previous experience. They have both given excellent satisfaction. On Mrs. Ide's resignation, Miss Mildred Barton was engaged to complete the school year. Miss Barton faced a rather difficult situation, but the board wish to commend her for conscientious work, a very orderly school, and an unusually good attendance.

Only one change worth noting has been made this year. In September Miss Katherine Ide was engaged as special teacher of music and drawing. Starting with pupils who had had no previous instruction in either subject, and confined to one recitation a week, it is too early yet to expect very striking results. On the principle that what is worth doing at all is worth doing well, we are planning for the coming year to increase the amount of work, and the material to work with, and to supplement the work of the spe-

cial teacher by additional work on the part of the regular teachers. We may not always be so fortunately situated as to have the services of a competent teacher at a normal expense.

As by law required, we advise the district that for the ensuing fiscal year there will be required for text-books and apparatus the sum of sixty dollars; and for scholars' supplies, fifteen dollars.

Respectfully submitted,

HENRY W. HURD,

For the Board of Education.
